

SAURABH VISHWAKARMA

Full Stack Developer (MERN)

Lucknow, Uttar Pradesh, India | +91 90267 55863 | saurabhvk24@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFILE

Full Stack Developer (MERN) with a 2026 B.Tech in Computer Science, having built full-stack projects delivering 30+ REST API endpoints and a real-time messaging platform using Node.js, Express.js, and Socket.io. Strong foundation in Data Structures & Algorithms, OOP, and backend architecture, with hands-on experience in authentication, RBAC, and API testing.

SKILLS

- **Languages:** C, Java, Python, JavaScript, TypeScript, SQL
- **Frontend:** HTML5/CSS3, React.js, Next.js
- **Backend:** Node.js, Express.js, REST APIs, Socket.io, WebRTC
- **Databases:** MongoDB
- **Testing & API Tools:** Jest, Supertest, Postman
- **Core CS:** Data Structures & Algorithms, OOP, MVC Architecture, System Design Basics
- **Tools:** Git/GitHub, Azure AI Foundry, Prompt Engineering

PROJECTS

REST API E-Commerce Backend | Node.js, Express.js, MongoDB

- Built a RESTful API backend following MVC architecture, delivering 20+ CRUD endpoints across products, orders, and users with JWT authentication, refresh-token rotation, and role-based access control (RBAC) on all protected routes.
- Implemented MongoDB transactions for atomic operations, chainable query filtering (ApiFeatures), Helmet and rate-limiting for security, and Winston for structured logging.
- Added Jest/Supertest test coverage and documented all endpoints via a Postman collection.

Real-Time Chat Platform — Chatify | Node.js, Express.js, MongoDB, Socket.io, WebRTC

- Built a full-stack real-time chat platform with JWT authentication, bcrypt-hashed passwords, and OTP-based email verification via Nodemailer, securing sensitive routes through middleware.
- Implemented peer-to-peer voice/video calling using WebRTC with Socket.io signaling, alongside real-time friend-request notifications and live online/offline presence tracking.
- Built private 1-to-1 messaging scoped to individual friend pairs via dynamic Socket.io room allocation, with persisted chat history and Three.js-powered UI elements.

24Zen — Founder | Independent Venture (Paused) | React.js, Three.js, Node.js

- Independently conceived and designed the concept, brand identity, and a Three.js-powered landing experience for a proposed 24x7 service platform spanning 6 verticals (groceries, healthcare, skilled workers, food delivery, transport, digital utilities).
- Created a 12-slide investor pitch deck and complete branding asset set for early-stage investor outreach; venture is currently paused pending funding to move to full execution.

Full Stack Web Application | Node.js, Express.js, JavaScript

- Developed an end-to-end web application integrating a Node.js backend with a dynamic JavaScript frontend for form-based data collection, built on 10+ RESTful API endpoints.

EDUCATION

Babu Banarasi Das Northern India Institute of Technology, Lucknow

2022 – 2026

B.Tech, Computer Science | CGPA: 8.69/10

Higher Secondary (Class XII), CBSE Board, Lucknow

2022

CERTIFICATIONS & TRAINING

- Claude AI & AI Agents Course, Anthropic (2026)
- AI Agents: Beginner to Pro, Azure AI Foundry — Udemy (2026)
- Data Science, AI & DSA Training (90 Hrs), Ducat / ShapeMySkills (2025)
- Kali Linux — Cybersecurity Fundamentals Certification, Simplilearn SkillUp (2026)
- Web Technology Workshop, Softpro India (2023)
- Soft Skills Program, Learnovate Enterprises / BBD Group (2026)
